Equip Your Candidates with the #1 Skillset Modern Tech Demands

Stop Wasting Dev Cycles on Glue Work. Automate the work out of low-leverage tasks. Our 2-week course focuses on **AI-Augmented Engineering** and Serverless Orchestration—tools that let you ship features instead of managing overhead.

The "AI-First" Tech Advantage conducted by pioneers from **Stanford, Zurich, and Munich**. We equip technical professionals for immediate impact in accelerated R&D, serverless orchestration, and automated operational workflows.

Curriculum Highlights: The Modern Tech Toolkit

Automated Documentation: Generate API docs, READMEs, and RFCs directly from your code—always up-to-date, commit by commit.

Visual Architecture: Convert Terraform plans, logic flows, and schema definitions into clean, stakeholder-ready architecture diagrams. Communicate systems without spending hours in diagram tools.

Serverless Orchestration: Skip spinning up containers for simple automation. Use Make.com to build fast, reliable cross-platform workflows (e.g., GitHub ↔ AWS) with minimal infrastructure overhead.

Intelligent Ops Agents: Create AI agents that triage incidents, validate bugs, and surface internal knowledge automatically.

Format: 2-week Hybrid Course (on-site & remote) in English

Instructors: Leading industry experts with extensive practical experience

Week 1: Artificial Intelligence & ICT / Tech

| DATE | Title | Location | Lecturer | Time |
|-------------|---|-----------------|--------------------------------------|---------------|
| 23.02.2026 | Introduction to Artificial Intelligence | Onsite, Zurich | Johannes Höllerich Sarah Gottwald | 09.00 – 17.00 |
| 24.02.2026 | AI Agents / Assistants | Onsite, Zurich | Johannes Höllerich | 09.00 – 17.00 |
| 25.02.2026 | AI Tech Advanced Topics | Zoom | Marcel Geffé & Stefan Paulus | 09.00 – 17.00 |
| 26.02.2026 | AI Tech Advanced Topics | Zoom | Marcel Geffé & Stefan Paulus | 09.00 – 17.00 |
| 27.02.2026 | Recap Day Review Session with Course Leads | Zoom | Sarah Gottwald & Johannes Höllerich | 11.00 - 12.00 |

Week 2: Artificial Intelligence & ICT / Tech

| DATE | Title | Location | Lecturer | Time |
|-------------|---|-----------------|------------------------------------|---------------|
| 02.03.2026 | AI Tech Advanced Topics | Onsite, Zurich | Suprosanna Shit | 09.00 – 17.00 |
| 03.03.2026 | Negotiations & AI | Zoom | Martin Giese | 09.00 – 17.00 |
| 04.03.2026 | AI for job searching CV & cover letter with AI | Onsite, Zurich | Sarah Gottwald | 09.00 – 17.00 |
| 05.03.2026 | Navigating and Advancing in the AI-Job Landscape | Onsite, Zurich | Klaus Fuchs Rockstar Recruiting | 09.00 - 17.00 |
| 06.03.2026 | ❖ Wrap up and feedback ❖ Apero | Onsite, Zurich | Sarah Gottwald | 12.00 – 16.00 |
