Curriculum

Equip Your Candidates with the #1 Skillset Modern Marketing Demands

Marketing has evolved. Today's employers aren't just looking for copywriters or strategists—they are looking for **AI-augmented creators**. Our intensive 2-week course bridges the gap between traditional marketing skills and the future of the industry.

The "AI-First" Marketing Advantage conducted by pioneers from **Stanford, Zurich, and Munich**. We prepare participants for immediate impact in high-efficiency content creation, sales automation, and data-driven marketing strategy.

Curriculum Highlights: The Modern Marketer's Toolkit

High-Volume Content Creation: Mastering AI Tools e.g. ChatGPT to generate SEO-optimized blogs, social media copy, and ad scripts at 10x speed.

Visual Storytelling & Branding: Hands-on training with e.g. Midjourney to create professional ad visuals, mockups, and brand assets without needing a graphic designer.

Marketing Automation: Using Make.com to connect apps and automate tedious workflows, freeing up time for strategy.

Next-Level Customer Engagement: Building and programming custom AI Agents (no-code) to handle customer inquiries or qualify sales leads automatically.
